Yash Khadagta

B.Tech – Computer Science and Engineering
Poornima Institute of Engineering & Technology, Jaipur

+91 7976953839 — khadagtayash@gmail.com — LinkedIn — GitHub — Jaipur, India

Summary

B.Tech Computer Science student with internship experience in Data Science, Machine Learning, and Generative AI. Skilled in Python, SQL, Scikit-learn, and building intelligent applications using LLMs and Retrieval-Augmented Generation (RAG).

Education

- **B.Tech – Computer Science and Engineering** 2023–2027
  Poornima Institute of Engineering & Technology, Jaipur
- **Senior Secondary (Class XII)** 2023
  Kapil GyanPeeth, Jaipur
- **Secondary (Class X)** 2021
  Kapil GyanPeeth, Jaipur

Experience

- **Data Science Intern – Celebal Technologies** May 2026 – Jul 2026
  - Developed an AI-powered Loan Advisory Chatbot using RAG, Gemini 2.5 Flash, Sentence Transformers, FAISS, and a GRU-based intent classifier.
  - Built a document processing pipeline with PDF extraction, semantic retrieval, and Streamlit for source-grounded responses.
- **AI/ML Developer – KisTechno Software** Jun 2025 – Sept 2025
  - Developed a browser middleware using Random Forest trained on a 2M+ phishing dataset with Google Safe Browsing API integration.
  - Integrated Google Safe Browsing API with a Random Forest-based phishing detection pipeline for browser security.

Projects

- **AI-Powered Loan Advisory Chatbot** GitHub
  - Developed an AI-powered Loan Advisory Chatbot using RAG, Gemini 2.5 Flash, Sentence Transformers, and FAISS.
  - Built a document processing pipeline with intelligent chunking, semantic retrieval, GRU-based intent classification, and prompt engineering.
- **Phish Proof AI Middleware** GitHub
  - Developed a browser middleware using Random Forest and a 2M+ phishing dataset with Google Safe Browsing API for real-time URL classification.
- **Global Mortality Data Analysis & Prediction** GitHub
  - Built and evaluated a Linear Regression model using Scikit-learn with feature engineering and data preprocessing for mortality forecasting.
- **Hotel Management System** GitHub
  - Developed a hotel management web application using HTML, CSS, JavaScript, PHP, MySQL, and XAMPP with authentication and booking management.

Technical Skills

- **Programming:** Python, SQL, Java, C++
- **Core CS:** Data Structures & Algorithms, OOP, DBMS
- **Machine Learning:** Scikit-learn, Supervised Learning, Unsupervised Learning, Linear Regression, Random Forest
- **Deep Learning & Generative AI:** ANN, CNN, RNN, LSTM, GRU, Autoencoders, Encoder–Decoder, LLMs, RAG, Prompt Engineering
- **Frameworks & Tools:** Sentence Transformers, FAISS, Streamlit, Git, GitHub, MySQL, Gemini API
- **Data Science:** NumPy, Pandas, Matplotlib, Seaborn, Statistical Analysis
- **Cloud:** Google Cloud Platform (GCP)
- **Soft Skills:** Problem Solving, Analytical Thinking, Communication, Team Collaboration

Certifications

- **Oracle Cloud Infrastructure** – Certified Generative AI Professional (2025) View Certificates
- **Google Cloud Launchpad** – Data Analytics Track
- **NPTEL (IIT Madras):** Data Structures & Algorithms (Java), Programming in Modern C++, Programming in C, Python for Data Science, Ethical Hacking

Achievements

- **NPTEL Discipline Star** – Awarded for outstanding performance in multiple NPTEL courses (Jan–Apr 2026)
- **Winner** – Smart India Hackathon (SIH) Internal 2024
- **Regional Finalist** – SBI Life Hack-AI-Thon 2024
- **Participant** – Adobe India Hackathon, DCGC Hackathon 2.0, SIH Internal 2025
- **Project Presenter** – MNIT & JECRC Technical Exhibitions
